**DETAILED ACTION**

***Election/Restrictions***

1. Claim 1 is generic to a plurality of disclosed patentably distinct species comprising: a) Species (I) directs to an objective system having four mirrors and an intermediate image plane as shown in figures 1; and b) Species (II) directs to an objective system having six mirrors and two intermediate image planes as shown in figures 2 and 3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. The claims of the species (I) are claims 2-10 and 17-36, and the claims of the species (II) are claims 11-16 and 37-43.

3. A telephone call was made to Gilfillan Marie on 4/7/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2872

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
